Audi Navigation Plus is an in-car media and navigation system developed by Audi. Unlike the Audi Multi Media Interface, it can not control climate, convenience, suspension or engine settings. Audi Navigation Plus units were available mostly as an optional equipment instead of standard stereo systems.

Audi Navigation Plus - Wikipedia

Navigation components can be combined with an application to cover multiple levels. All in all, the navigation should be designed to be as simple as possible for the user. The size of the navigation components depends on the basic type size used, which can adapt to the viewport width in question. As such, it is flexible in size.
