Grocery Offers Resilience to Retailing in Emerging Markets. The Coronavirus (COVID-19) pandemic has severely disrupted economic growth across emerging countries in 2020, with a clear impact on retailing. India, for example, is one of the worst-hit economies, with real GDP contracting from 4.2% in 2019 to an expected decline of 5.1% in 2020; this is comparable to the impact on India's retailing industry (growth of 6.1% at constant prices in 2019 to -5.5% in 2020).

Overview The Russian retail environment has faced a number of challenges during the last century. From the result of the Russian Revolution and the nationalization of retail trade within the planned market Communist system, through the end of the Soviet period in the early 1990s and the liberalization of retailing practice, the role of official retail policy has presented a number of challenges.
