Blood sugar level - Wikipedia

People without diabetes typically have between 72–140 milligrams of glucose per 1 deciliter of blood. People who have diabetes tend to have slightly higher blood glucose, or sugar, levels at ...

Glucose blood test: What are normal blood sugar levels?

Where To Download Sugar In The Blood A

Blood glucose, or sugar, is sugar that is in your blood (easy enough!). It comes from the food that you eat — foods that contain carbohydrate, such as bread, pasta and fruit are the main contributors to blood glucose. The cells in our bodies need glucose for energy — and we all need energy to move, think, learn and breathe.
