The Rise Of The Robots

"I tip my hat to Martin Ford's Rise of the Robots, which is vacuuming up accolades and is recommended reading for IIF staff. Ford's analysis, in a somewhat crowded field of similar books, offers a sobering assessment of how technology (robotics, machine learning, AI, etc.) is reshaping labor markets, the composition of growth, and the distribution of income and wealth, and calls for enlightened political and policy leadership to address coming, accelerating disruptions and dislocations."—

THE RISE OF THE ROBOTS is a sub-zero-budget satire that takes aim at our obvious dependence on gadgets, especially "smart phones". The clunky, garbage can robots and other intentional cheeze, are -somewhat- fun, along w/ the semi-intermittent humor. No, this isn't STAR WARS, so don't expect anything overly, or even remotely spectacular.
