Visualizing Technology is a highly visual, engaging computer concepts textbook.

Unlike other textbooks, Visualizing Technology does not include pages full of long paragraphs. Instead, important topics are presented in the way students are hardwired to think--with smaller sections of text, creative use of images for easier

About the Book. Appeal to visual and kinesthetic learners: Visualizing Technology covers all of the traditional topics taught in a Computer Concepts course, but in a non-traditional way. A highly visual layout with bite-sized chunks of text appeals to the learning styles of students today—visual and kinesthetic.
